

IN STOCK AND READY TO SHIP!

McQuay has the right chiller, right now.

Even the hard-to-find units are stocked for immediate shipment—air cooled chillers above 200 tons and centrifugal chillers, including frictionless compressor chillers!

All McQuay In-Stock Chillers and Condensing Units

- Meet or exceed ASHRAE Std 90.1 for efficiency
- Factory tested for reliable operation on the job
- Designed to be the quietest in the industry
- Offer our Open Choices™ feature allows easy integration with your building automation system of choice

Air -Cooled Condensing Units

- 10 to 70-ton size
- Tandem scroll compressors have fewer moving parts for increased reliability
- Operation down to 40°F ambient
- Single point power block for easy installation and servicing

Air-Cooled Chillers

- Scroll compressor chillers – 10 to 130 tons
- Screw compressor chillers – 110 to 330 tons
- Solid state starters on screw compressor chillers provided as standard equipment for superior power monitoring
- Service friendly design for easy maintenance and troubleshooting

Water-Cooled Centrifugal Chillers

- Single compressor models, 187 to 606 tons
- Standard bolt-together construction for easy disassembly and re-assembly at the job site for retrofit installations
- Flexible impeller, motor and gear offerings to meet a wide range of electrical, capacity or efficiency requirements
- For starter options, contact your McQuay representative

Water-Cooled Chillers

- Scroll compressor chillers – 40 to 120 tons
- Screw compressor chillers – 130 to 190 tons
- Frictionless compressor chillers – 110 to 175 tons
- Fit through a standard three-foot door – ideal for retrofit projects
